

**GRUPPO 2G** S.p.A.

COMPLIANCE, TECHNICAL & ORGANISATIONAL CONSULTING

---

**Concrete and effective  
solutions, built on the  
Client's needs**

# Complexity

## AN OPPORTUNITY TO GRASP

### In our competitive context characterised by:

#### AN INCREASING NUMBER OF LAWS

on «public» assets such as health and safety, environment and energy, characterised by greater awareness from the public opinion

#### CORPORATE NEEDS

feature product/process standards recognized after the globalization of markets and increasing pressure of competitors

#### AWARENESS

There is no turning back from the increasing number of laws, but they represent an expansion phenomenon

The support of a company able to transform the respect of a rule into a competitive advantage and business opportunity is essential, harmonising processes, required in order to comply with binding requirements, within the Company's organizational fabric.

# Our distinctive elements

We are a team of engineers and we are not here to remind you what to do, like anybody else...**we do it with you, on-site, challenging ourselves and hands-on**

30 years of experience, supporting **organisations of various sizes and belonging to different sectors**, allowed us to grow continuously in the voluntary and binding "compliance" field

We implement procedures **harmoniously**, required to comply with regulations, within the fabric of your organisation, **because we know the Company's processes well and also voluntary and binding regulations**

We know that **complying with regulations** is a key element for the success of the "Business Proposition" of our Clients

We use standards recognised at international level to **structure organisations in an efficient, modern way**, managing complex laws, the risks of sanctions and transforming a mere obligation into an opportunity

**Our service is personalised** according to the needs of every Client.

---

**We don't tell you what you want to hear, WE CONVINCED YOU THAT THERE ARE OTHER WAYS TO HANDLE COMPLEXITY**
